The Regina Standard announces a change of proprietorship, its leading article commencing as follows: "The Standard has changed hands. It has passed from the control of 'The Standard Publishing Company' to that of 'The Standard Printing Company.' The members of the new firm are Messrs. Jno. K. McInnis and Walter Scott, who have entered in co-partnership under that name. They have acquired all the assets of the former firm, and have assumed all the responsibilities incurred by the manager of that firm, in its behalf. The article goes on to say that the general policy of the paper remains unchanged and that the daily, which it has been running since last March, will be dropped at once and the paper will be issued only once a week. The first issue of the paper under the new order of things has a strong Haustralian flavor."

TERRITORIAL EXHIBITS.

Through the kindness of Mr. H. Douglas, of Calgary, who accompanied the Alberta exhibit at the Toronto exhibition, the BULLETIN has received marked copies of the daily Globe and daily Empire containing mention, by those papers, of the Territorial exhibit. It would appear from this mention that the exhibit makes a most favorable showing for the Territories at large, inasmuch as it plainly appears that there are sections of it which can produce such exhibits; but it also appears that particular stress is laid on the exhibits from Calgary and Moosomin. Indeed, from these reports, it would appear that these two points furnished the whole exhibit. If they did there can be no objection to the fact being stated. But as a matter of fact they did not. The peculiar prominence given these two points is probably due to the fact mentioned at the foot of the Empire's comment: "H. Douglass, Calgary, L. D. Keown and O. Neff, Moosomin, are in charge of the building;" and that the gentlemen mentioned have taken the opportunity to magnify the advantages of the particular districts in which they happen to live instead of giving due credit to the Territories as a whole. No doubt there are people who think that this sort of work is good policy—that it shows a profitable sharpness. The BULLETIN begs to be allowed to think differently. A territorial exhibit is sent to show what the Territories—not one or two districts—can produce. That is what people who attend an exhibition want to know, and that is what men are sent along with an exhibit to explain to them. If they do not explain it—and in these important cases the gentlemen in charge evidently do not explain—they are not transacting their business properly and are not benefitting the Territories as they should. Of course, if these exhibits had been collected and placed on exhibition at the sole expense of the C. P. R. it would be the privilege of that company to allow any statements regarding them by their agents that they might please; but when the Territorial revenue is drawn upon for expenses in this connection, the Territories, and not only one or two sections, should receive whatever benefit can accrue. Speaking for this district, we only want such notice as the exhibits we send entitles us to; but we want that, and will have it or know for why.

Winnipeg Tribune: "A number of Chinamen are waiting at the C. P. R. depot for the return of their papers from Washington, to permit of their crossing the line into the United States. Since the outbreak of small-pox, some weeks ago, the people of Gretna will give the Celestials no shelter, and as a result they have to remain in the city."

D. Suiter's foundry, Calgary, was burned to the ground on September 17th, at 5 a.m. The building was frame, but contained a lot of valuable machinery. The loss will be \$3,000. It was only insured for \$500.

T. A. Bernier, of St. Boniface, is mentioned as the probable successor of the late Senator Girard.

DEBENTURES.

Notice has been given of the intention of the council to borrow \$10,000 upon the credit of the town of Edmonton. This proposition is of the very greatest importance to the present and future welfare of the town. The proposed loan cannot be negotiated without the express sanction of the ratepayers, which sanction is to be given or withheld on the 17th of October next. An issue of debentures is a mortgage upon the private property comprised within the limits of the town, and the ratepayers, the men whose property it is proposed to mortgage, will do well to consider the question in all its phases before giving their consent. Of course, it is quite the custom—especially in the west—as soon as incorporation is effected, whether it be county, town or school district, to use the credit thereby acquired for the purpose of borrowing money. Indeed it would seem that the ability to borrow money acquired through incorporation, was the chief reason in the minds of some people for desiring it; and so, on the other hand, the danger of being unduly burdened in this way is the great objection made by another very large number to incorporation. The advisability of using the credit of a corporation depends entirely upon the circumstances of each case. When a town is newly organized its credit is at its best, but at the same time its needs are greatest. It is quite natural that in trying to meet the needs of a new town those who have charge of its affairs should draw upon its credit to meet necessary expenditures for permanent improvements. The chief point on which there is room for a difference of opinion is the degree of necessity which exists for each proposed expenditure. This differs in every town according to the situation and circumstances of each. In one place the question is sewerage, in another waterworks, in another levelling the streets, and in still others—and to this class Edmonton belongs—the question is improvement of railway connection. When the incorporation of Edmonton was first talked of, the main object was acknowledged on all hands to be the securing of a bridge across the Saskatchewan and the location of the railway terminus at the most convenient point for the business interests of the town. These objects have not yet been attained. True the town has grown and prospered exceedingly without them, but the necessity of their attainment is as great as ever, and indeed is constantly increasing. There can be no question in the mind of any man that however greatly our town has prospered in the past thirteen months, since the railway was completed, it would prosper very much more if the terminus were more conveniently situated and the Saskatchewan were bridged. We have a reasonable claim upon the government for the bridge and upon the railway company for the proposed extension, but this claim is not likely to be recognized unless we are prepared to press it by offering to share the expense. Our total available credit is \$66,436, according to the present assessment of the town. According to the preamble of the by-law we have already taken up \$17,862 of this credit by ex-

pendediture on local improvements made this year. If we lay on another \$10,000 our possible credit will be reduced so greatly that our further efforts to secure a suitable railway terminus, and the bridging of the river will be seriously crippled.

The value of property in this town depends upon its retaining its position as the trade centre of the Edmonton district and the MacKenzie basin. To insure, beyond any question, its retaining that position should be the care as it is the interest of every ratepayer, and to ensure this every means should be taken to place it in the best possible position towards the railway. To do this it will be necessary to use our credit perhaps to the fullest extent, and until this is done any reduction of our credit for any other purpose must be considered to be a mistake, which, should it be made, it is to be hoped will not be a fatal mistake.

BY-LAW NO. 29.

A by-law to provide for borrowing the sum of \$10,000.00 upon the credit of the Municipality.

Whereas it is expedient that there should be raised by the Municipality of the town of Edmonton the sum of \$10,000.00 to enable the Municipality to repay certain amounts temporarily borrowed for the purchase of certain lands and fire apparatus required for the use of the Municipality and for other like purposes of permanent benefit to the Municipality, and also to enable the Municipality to borrow further sums which it is expedient to expend for the purpose of erecting a fire hall and for other like purposes of permanent benefit to the Municipality.

And whereas the value of the rateable property in the Municipality, according to the last revised assessment roll, is \$664,364.00.

And whereas the amount of the existing debt of the Municipality, other than for current expenses, is \$17,862.49 (incurred in respect of local and permanent improvements) and \$188.50 for interest thereon making together \$18,050.99 whereof no part is in arrear.

And whereas it is expedient to borrow the said sum of \$10,000.00 by the issue of debentures, the principal whereof shall be repayable within ten years from the date upon which this by-law shall take effect, and which shall bear interest in the meantime payable half yearly at the rate of six per cent per annum.

And whereas it is expedient to provide for the repayment of the said principal sum by the creation of an equal yearly sinking fund.

And whereas the total amount which will be required to be raised annually by a special rate for repaying the said debt of \$10,000.00 by means of a sinking fund as aforesaid, (and the interest thereon as aforesaid) is \$1,395.04.

And whereas the annual special rate on the dollar required as being sufficient to pay the said interest and to create the said equal yearly sinking fund for the paying of the principal is two mills and one-tenth of a mill.

Therefore the Mayor and Council of the Municipality of the town of Edmonton in Council assembled enact as follows:

1. This by-law is to take effect on the 1st day of December, 1892.

2. The Mayor and Clerk of the Municipality may borrow on the credit of the Municipality the said sum of \$10,000.00, and may issue debentures of the Municipality to that amount in sums of not less than \$500.00 each and repayable within 10 years from the said 1st day of December, 1892, with interest at the rate of six per centum per annum payable half yearly; such debentures to be payable at the Imperial Bank of Canada, Edmonton, Alberta, N.W.T., and to have attached to them coupons for the payment of interest.

3. For the purpose of paying the amount which shall be required to be raised annually for paying the said interest and creating an equal yearly sinking fund to be set apart for the payment of the said principal sum of \$10,000.00 a special rate of two mills and one-tenth of a mill on the dollar, over and above all other rates and taxes, shall be levied (in the same manner and at the same times as the general Municipal taxes upon the whole rateable property in the Municipality in each year for the period of ten years from the said 1st day of December, 1892, being the period during which the said debentures will run).

4. Monday the 17th day of October, 1892, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon at the office of the town clerk, Edmonton, is hereby fixed as the day and hour and place for taking votes of the electors for and against this proposed by-law.

5. A. G. Randall is hereby appointed Returning Officer and J. R. Michael Deputy Returning Officer to take the votes at the said time and place.

6. Monday, the 17th day of October, 1892, at the hour of six o'clock in the afternoon at the town Clerk's office, Edmonton, is hereby fixed as the time and place when and where the Returning Officer shall sum up the number of votes given for and against this proposed by-law.

Provisionally adopted in Council this 16th day of September, 1892.

PUBLIC NOTICE is hereby given that the foregoing is a true copy of a proposed by-law which will be taken into consideration after one month from this 19th day of September, 1892, being the date of the first publication thereof in the "Edmonton BULLETIN," a Public Newspaper published within the Municipality, and that the votes of the Electors of the Municipality will be taken thereon at the town clerk's office, Edmonton, on the 17th day of October, 1892 from the hour of 9 o'clock in the forenoon to 5 o'clock in the afternoon, and the polls will then and there be held for that purpose.

A. G. RANDALL,
Town Clerk.

PUBLIC Notice is hereby given that under "The Companies Act," letters patent have been issued under the Great Seal of Canada, bearing date the 9th day of August, 1892, incorporating John Ritchie, of the Township of Bathurst, in the County of Lanark, Province of Ontario, miller; Robert Ritchie, of the said Township of Bathurst, miller; George Ritchie, of said Township of Bathurst, yeoman; William Ritchie, of Grafton, in the State of North Dakota, one of the United States of America, yeoman, and William James Orman, of the City of London, England, gentleman, for the following purposes, viz.: The carrying on of a general milling and grain business, and the buying, selling and dealing in grain, flour and other produce,—by the name of "The Edmonton Milling Company" (Limited), with a total capital stock of forty thousand dollars, divided into four hundred shares of one hundred dollars.

Dated at the office of the Secretary of State of Canada this 26th day of August, 1892.

J. C. PATTERSON,
Secretary of State.

ANOTHER INTERVIEW.

The would-be premier of the Northwest is in print again, by the same route as before, to wit: The spacious ear of the editor of the Regina Leader. The interview appears also in the Free Press, under the heading "Premier Cayley Talks." If the alleged premier had talked less and said more the interview might have been more interesting and valuable. As nearly as can be gathered from the doubly published report of this interview its object was to make as many of the public as possible believe that the BULLETIN had misstated the merits of the case regarding the recent events at Regina, whereby his honor the lieutenant-governor has again secured control of public affairs through four pliable tools, willing to accept place and salary without honor and without power. As to the BULLETIN's statements, those of the public who have followed the course of events at Regina are in a position to judge of their correctness, without repeating them or further arguing the matter; especially with an alleged premier who finds it convenient to attack his opponents and declare his policy in a newspaper interview rather than in the legislature which he failed to lead. One statement made by Mr. Cayley, regarding his opponents and his policy is worth notice. He says, "It was true there was no charge of misappropriation or mismanagement of public funds. No one ever said there was; but we do say that an equal division is a bad system." It is just as well to keep this little paragraph in mind, against the premier's next interview. It is to be hoped that his admission regarding his opponents may be as true of himself and friends a year hence. His declaration against an equal division of the public works money is important, in that it means an unequal division, or that the executive shall have the use of the public funds with which to purchase a majority in the house, if that is necessary and possible. Although this declaration of policy is not binding it is the policy that would naturally be expected from men who have taken such means of obtaining office as have been taken by Mr. Cayley and his associates, and it is just as well that the electors of the Northwest should have before them at as early a date and as clearly as possible, what manner of men these are and what they propose to do. A considerable part of this important interview is taken up with letting the readers of the Leader and Free Press know that Mr. Cayley does not like or admire either the ex-speaker of the assembly or the editor of this paper. But as the would-be premier's love and admiration are well-known to be centered chiefly upon the junior member for Calgary there is nothing singular about his non-appreciation of the many excellent qualities of the two individuals mentioned. His personal allusions to the editor of this paper are such as might be expected from one of the personal record and associations of the premier. He is fortunate in that he can deal in personalities to an unlimited extent without danger of his own personality being discussed; as it cannot be fully in the columns of a paper intended for family reading as is the BULLETIN.

A FIRE occurred in Fraser & Co.'s mill on Saturday forenoon about 11 o'clock. A spark from the smoke stack had fired the shingles of the engine house, and the eav of the saw mill had also caught and was blazing strongly when Malcolm McLeod, one of the proprietors, who happened to be passing from the office to the saw mill, saw it and gave the alarm. Buckets were promptly brought into use and the supply of water always kept in barrels along the ridge of the roof turned on the fire. The force pump and hose attached to the boiler was also used with good effect. In a very few minutes from the giving of the alarm the fire was out. Had it got a minute more headway at the start it would have been beyond control, and the saw and grist mill must have burned.

HON. D. FERGUSON, of Prince Edward Island, who visited Edmonton in July last, has organized a company on the Island to carry on agricultural pursuits in the Northwest. The principal directors are Messrs. H. Haslam and Fred. R. Perkins. Messrs. Ferguson and Haslam will leave for the Northwest about October 1st to acquire land and arrange for the commencement of farming operations next spring.

THE funeral of the late Mrs. D. McLeod took place on Friday afternoon from the residence of her son, Malcolm McLeod, Edmonton, to the Presbyterian church and the Edmonton cemetery. There was a large attendance of friends and relatives of the deceased. The funeral service was conducted by Rev. D. G. McQueen, who delivered a most impressive sermon suitable to the occasion in the Presbyterian church.

THE following land prospectors left the Queen's hotel on Friday's train after a short stay looking over the district; W. C. Lyall, Mrs. Lyall Winnipeg; Peter Linklater, Macleod; Geo. Carr, Point Alexander; John Wilson, Chalk River; W. W. Lockwood, St. Thomas, Dakota; A. Brown, Iowa; D. C. McDonald, Ont.; Jas. C. Farr, L. P. Farr, Pullman, Washington; H. H. Blake and Geo. Bremer, Moscow, Idaho. The four last mentioned arrived on Monday last, and represented a large number of well-to-do farmers in the district on the borders of Washington and Idaho. They will return in about a month.

H. H. SMITH, Dominion immigration agent of Creighton, Nebraska, arrived on Thursday's train with another large party of Nebraska delegates, who started from home on September 15th. All of the party accompanying Mr. Smith in July last took land either east of Fort Saskatchewan or near Olds station, south of Innisfail. Since leaving Edmonton Mr. Smith has been in Kansas, and hopes to work up a movement from there shortly. He will leave for the south on Wednesday's train. The names of the party are; G. H. Hanks, J. Howse, E. Brandenburg, Creighton; A. L. Blanchard, R. Johnson, Neleigh; J. P. Williams, C. H. Hooper, Robert Brown, Robert Smith, Patrick Doyle, A. L. Wright, Schuyler; Wm. Robson, J. W. Hart, Millerboro; H. Oleson, Ole Spearsted, Winniton; W. Paterson, Pilger; O. F. Brodeen, Page; C. McLaughlin, Jno. Samis, G. M. Groat, Rogers, Nebraska. Several members of the party drove out to the the Sturgeon settlement on Friday, and have been looking up the country generally ever since.

DAKOTA CROPS.

"The people of North Dakota will be greatly disappointed in their wheat crop," said S. J. Seal at the Nicolet hotel, Minneapolis, yesterday. "The hot spell," he continued, "came too soon. It caught the wheat berry in its formative stage and shriveled it up. Fields that two weeks ago gave promise of 25 bushels per acre, are only turning out 12 or 15. This condition prevails, I believe, all over the state, with the exception of the Missouri slopes. Harvesting is about over and threshing is commencing and some of the tales told by the machines are surprising. I saw fields on the Fargo & Southwestern that promised 40 bushel yields and they are threshing out less than 20. In this famous Red river valley the average is from 10 to 25 bushels; on the Fargo & Southwestern from 8 to 20. Last year's crop in North Dakota was estimated at 64,000,000 bushels; this year it will be less than 60 per cent. of that amount." Mr. Seal is the representative of the McCormick Harvester Company at Fargo, and his business calls him to all parts of the state. He thus has opportunities which enable him to speak intelligently of the prospect.—Minneapolis Market Record.

Commercial, September 19: "From later reports, it seems that the weather for the week ended September 10 was not as favorable as our article of a week ago would make it appear. Though there was no rain in the Winnipeg district to speak of that week, some sections in the south and west had considerable wet weather, which delayed stacking and threshing. This week ending September 17, has been generally favorable, and all that could be desired. The temperature has varied from moderate to warm and dry. The first frost of the season in the Winnipeg district came this week, but too late to do any harm to grain, and it was not severe enough to injure garden stuff, being barely traceable on tender plants. Local items regarding the crops are published in another column, and we repeat the caution given last week that as these items are from local sources, they will, as a rule, require some scaling down, country estimates being generally too favorable. We look from a crop not in excess of last week's estimate, and perhaps rather under this."

Considerable stir has been observed for some time past, says the Battleford Herald, in a circle claiming to have discovered coal oil in this district. The finders are of course reticent as to the location of their discovery, but claim that samples sent east have stood the tests of the analyst, and that they have been offered a good round sum for an interest in the company. We wish the explorers good luck and hope to see speedy development.

As there are a large number of new settlers in the district this fall it is perhaps well to draw their attention pointedly to the danger from prairie fires now coming on. In a day or two the mass of rank vegetation which covers the country will in all probability be as dry as tinder, and a spark accidentally dropped may do incalculable damage. It is the duty of every person to be careful to the very greatest extent about allowing fire to es ape, and it is also the duty of every one to provide as complete protection as possible to his own property whether hay stacks, grain stacks or buildings. Good fire breaks should be plowed around all property likely to be reached by a prairie fire; and every possible means taken to prevent loss. If the fall happens to be short and damp the danger is not great, but if it is long and dry there is almost a certainty of loss to some extent which should, as far as possible, be provided against.
